## S RAMADORAI LIFETIME ACHIEVEMENT

He has spent nearly four decades working for a single organization, steered it grow from 160 million dollar company into a 8 billion dollar global giant; from a small organization into 200,000 strong workforce - and become nation's largest IT employer - with presence across 42 countries worldwide. His focus has always been to leverage local talent. His preference for India is exemplified by the fact that while most software players preferred global markets avoiding projects in India, he built Tata Consultancy Services grounds up to draw upon nation's inbuilt strengths. He is S Ramadorai, who lives by 'India Preferred' philosophy - the doyen of Indian IT industry. He is instrumental in building some of the largest government and financial systems in India, including banks and markets at the national level and several mega projects in states like Gujarat, Madhya Pradesh and Andhra Pradesh. Given his dedication and passion for skill development over all these years the Prime Minister has appointed him Adviser on Skill Development to address skill deficit.
